ABOUT

ORIGIN

Workshop Creative is a Chicago based design firm founded in 2020 by David Oden. Our company's formation generated from a passion for the design process stemming from years of product development and sourcing for various retailers. We encapsulate design that understands the full product development cycle with an illuminated perspective on trend and an instinctual knowledge for future thinking and aesthetic.

VISION

Workshop Creative encompasses a mix of contemporary and modern design while maintaining deeply rooted connections to vintage forms. Visionary philosophy and sustainability are at the core of our foundational values. We strive for design that promotes wellness and community in conjunction with individual distinction.

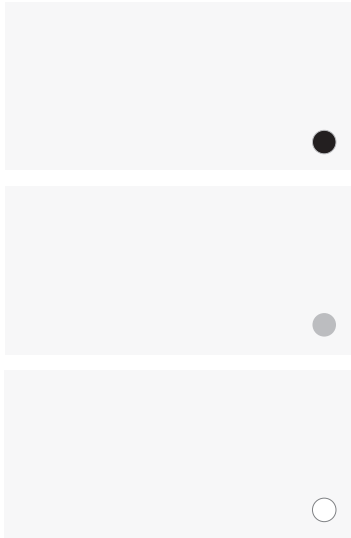

We make every effort to ensure our partners and their partners are moving in an environmentally conscientious direction. To us, sustainability is not only an environmental responsibility, but also a social and ethical one. For those reasons, we are committed to ensuring that our product is produced as responsibly and sustainably as possible.

CONNECTION

At Workshop Creative, we get excited about joining minds with other creatives to move design forward to meet the needs of an ever-expanding aesthetic while pushing trend forward. We provide collaboration and partnership opportunities through the use of technological and creative resources to elevate and refine our design to meet our client's needs. Our partnerships are meant to motivate and uphold a firm belief that products can create wellness while breaking through what's expected.
